

## Updates

As you probably have noticed the frame for the expansion is beginning to take form. The major frame components including the roof trusses are now in place. Weather permitting we should begin to see the work progress quickly and the new facility take shape. You might also have noticed removal of the black plastic inside the existing Fitness Center. The new office renovations are nearly complete, so only minor work will take place in this area going forward.

We appreciate your patience as we make it through this very busy time of year. With the construction going on, the limited space and one unusable exit in the Fitness Center, we really need to pay close attention to the number of members using the room. We want to be sure that our members have a safe environment to work out in. With this being said, we would encourage members to use the alternate equipment in the hallways. We would also encourage anyone that has the flexibility in their schedule to avoid the busy evening hours between 6pm and 9pm Monday through Thursday. We appreciate your patience as we continue to work on expanding the Fitness Center for you.

## What to Expect

### Next Week:

- Framing of the addition will continue.

### Near Future:

- Roof to be installed on expansion area.

## Impacts to Members

With the construction of the expansion's frame and addition of the roof we anticipate that there will be some additional noise coming from the exterior of the building.

## Tell Us What You Think

While we anticipate some impacts during construction, the staff at the CRC is committed to mitigating these impacts as much as possible. Let us know how we are doing, by filling out a comment card, talking to our staff, or emailing us at [chris.ghione@mhcrc.com](mailto:chris.ghione@mhcrc.com). We really feel the final project will be "worth the weight".
